

CAM362
HD 4.5mm Cone Pinhole
(Internal Use)

The NiteDevil HD mini bullet camera is a great option when broadcast quality pictures are desired in discreet or covert applications.

This popular bullet style camera offers superb picture quality at 1080P resolution and 25FPS. Available in 2 versions, either a 3.6mm board lens model (which is also IP66 and can be fitted in or outdoors) or a 3.7mm cone pinhole lens that suits internal covert applications. They both offer a great solution where something discrete but high definition is needed.

Each model is supplied with an additional sun shield but they can be made even more discrete and easily built into the fabric of a building for covert use by removing it.

What is "Wide Dynamic Range" and where can it be used?

Wide Dynamic Range is a term applied to a camera's digital processing ability. It evens out bright and dark areas of an image, improving the overall appearance of an image with more uniform detail. It is particularly effective in a scene which has a back light, such as a window which overexposes a traditional camera, as illustrated by the images below:

WDR is switched off.

The buildings outside the window can't be seen. The camera tries to take an exposure reading from the bright window area resulting in the rest of the image looking dark.

WDR is switched on.

The buildings outside the window can be seen clearly and the overall exposure of the resulting image has been improved. The foreground is no longer looking dark.

For information on "Wide Dynamic Range" see the online tip 207 at nitedevil.com ▶▶▶

Features

- ✓ 1080p at 25fps
- ✓ Low light 0.02 Lux (Sens-up)
- ✓ Digital 64x Zoom
- ✓ Privacy Masking
- ✓ Wide Dynamic Range
- ✓ Removable Sun Shield
- ✓ Anti Vandal
- ✓ NiteDevil™ HD
- ✓ Bracket included

Specification

- 1/3" 2.1 Megapixel
- 1080p 25fps / 720p 50fps
- 0.02 Lux (Sens-up)
- 64x Digital Zoom
- +50dB S/N Ratio
- 1V p-p 75 ohms
- 12V DC 150mA
- On Screen Menu
- Privacy Masking
- CAM362 - 25.6mm x 107mm
- Sun-shield - 35mm x 125mm
