

CAM426

Still made in the UK after 20 Years

Sees in the dark! And rated 1Km Underwater!

The Advanced Vision has been used in Loch Ness to try and locate the monster! The Advanced-Vision electronics are sealed in an epoxy resin making it waterproof, dustproof and virtually bombproof. It's also cheap to run, at just 58p per year, based on an electricity cost of 6.5p/kwh.

Perfect for low-light underwater conditions, and suitable for indoor and outdoors.
