

NiteDevil
Sees in the Dark

PTZ950P
12V DC

Ideal for surveillance of large spaces! Such as warehouses or carparks

The PTZ & IR focus together, this means on a wide-angle shot you get a wide diffused IR beam and for long-distance shots you get a more powerful focussed IR beam.

This intelligent adjustment of the IR light from a wide to narrow beam produces better in low light with a clearer picture than a camera with a non-adjusting IR mechanism.
